Five Training Programs in Five Days

Harnessing Employees' Creativity

Course Agenda

July 11, 2022

The course will cover the following areas:

- Understanding creativity
- Understanding Employee involvement
- Our employees are our gold mine
- Being creative is not so difficult
- Getting ideas from creative minds
- Platform to harness creativity
- Ploughing benefit from employee involvement

Empower yourself with the Power hidden within you

Course Objective

July 12, 2022

This program is most suitable for the people who have lost their winning capabilities and peace of mind in this era of rat race. For others, this program may be proven as energy tonic for rejuvenate their winning spirit and a tranquilizer for happy dwelling.

The language used in this program has been kept as simple as possible. The approach is down to earth. Because of these anyone, irrespective of individual's educational qualification, race, religion and cultural & social background, can take part in this workshop.

4P – People, Process, Productivity and Performance

Course Objective

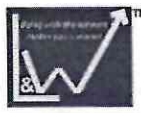

July 13, 2022

The course has multiple objectives.

The main objective is 'Skill Development'. Other objectives are –

- Overall People & Process Development
- Performance Improvement of the Business Processes
- Increase in Productivity

Venue details will be sent one week prior to the event only

Goal Setting & Time Management

The ability to manage time is an often-overlooked skill, but a skill that is vital to achieving goals. In our day-to-day activities, we go through the process (consciously or subconsciously) of setting goals and identifying the relevant steps, only to be side tracked or distracted by the lack of time to achieve all the goals we have set for ourselves.

July 14, 2022

For this we need to develop or enhance our skills and ability to successfully manage our time with respect to achieving our goals.

Mastering Technical Training and L&D Skills

Course Objective

July 15, 2022

A well-designed Training Program shall bridge the need and the performance gap. Designing a training course and to find & develop the trainers require the mixing of a large number of ingredients. The Right Training Cycle shall consist of –

- Understanding participants' and organizational developmental needs
- Designing a niche program that fulfils these needs
- Setting up appropriate methodology for training delivery
- Evaluation and Competency Development of the Trainers
- Measurement of Efficiency and Effectiveness of Learning and Development Cycle

Mastering Training Skills is about creating champions on the all above mentioned topics.

The program is designed in such a way that the participants will be able to establish an effective Training Systems including its Sustainable Strategies, Deployment and Improvement Practices. The participants will also be informed about the best practices and latest techniques in training delivery. They shall be able to discover the 4Ps of training – Purpose & Assessment, Planning & Preparation, Presentation & Facilitation, and Performance & Evaluation.

**Felicitation of
Certificate of Attendance By**

Faculty

MR. INDRANIL GHOSH

The real joy of teaching comes only when the teacher falls in LOVE with himself and his way of teaching. For Indranil Ghosh, teaching is not only his profession but also a passion. And this perfect blend of passion & profession is the genesis of his Charisma. That is why, despite being an ace Power & Energy Professional, he has been successful in proving himself as a charismatic Management Trainer.

Mr. Indranil Ghosh is a Multi-Skill Trainer and Learning & Development Professional. His prime hobby is to implant positive energy in people. His mission is to "Create Winners".

With the legacy of 40 years of versatile industrial experience, he is now involved in corporate training. As a professional speaker, he has been conducting various Executive Development Programs for the past several years pan India and abroad.

As an author and trainer, Indranil Ghosh is always an advocate of easy learning and he always tries his best to make a perfect blend of hardcore technical knowledge, soft skills and imagination to present them in all of his training programs and books.

His Training programs include Process Based Management, Strategy Deployment & Deployment, Creativity, Innovation and Idea Management, Quality & Energy Management System, Quality improvements through the use of QC tools, HR for non-HR professionals, Training the Trainers to enhance their abilities; Vision & Goal Setting, Time Management; Overall personality development through improvement in communication & Presentation Skill and igniting mind for creativity; Organizational Transformation and soft skills like Stress Management, Mind Matters and Self-empowerment, Business Excellence, Developing Leadership Skills among young managers.

His efforts of implanting positive energy in people are often reflected in my writings and the training workshops. He is a published author of many books. Some of them are –

- Three 'Self-Improvement' books – "10 Feel Good Factors", "Empower yourself with the power hidden within you" and "Yes, I got the podium!" for developing personalities
- One educative fiction "Nuggets of Nostalgia – Prescription for happiness". The attempt has been made to present a handy textbook in form of romantic fiction for the budding managers who wish to manage themselves and other resources. A few hard management dogmas have been propagated in soft manners.
- One soft technical book "Managing the Invisible Monster". This book talks about safe ways of handling electricity, which is invisible but can serve both as a slave as well as a master. Hazards of electricity and the ways to mitigate them have been discussed through stories in such a simplified manner that even the persons who do not know anything about electricity will be able to understand it.
- Two books on Business Management. One on business sustainability – "Romance with Risk is Business but Romance with Business is Sustainability" and the other one "Harnessing Employees' Creativity"
- Some more books are in the pipeline

Mr. Indranil Ghosh has also been taking part in various Business Excellence and HR Excellence Assessments. He has presented about a dozen of Technical/Study/Research Papers on HR, Management & Leadership related topics at various National Level Conferences.

About Learners & Winners

Learners & Winners presents itself as a business intelligence group that operates in the field of training and development specializing in power and energy sector. We are one of the growing and trusted names in the field of training and development.
