URBAN DEVELOPMENT TOWARDS A SMART NATION VISION

30 SEPTEMBER TO 4 OCTOBER 2024

Jointly sponsored by the

SINGAPORE COOPERATION PROGRAMME

and the

JAPAN INTERNATIONAL COOPERATION AGENCY

under the

**JAPAN-SINGAPORE PARTNERSHIP PROGRAMME FOR THE 21ST
CENTURY**

to be conducted by the

CENTRE FOR LIVEABLE CITIES

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring together under one framework the various technical assistance programmes offered by Singapore. Through the SCP, the range and number of training programmes were increased to share Singapore's development experience with other developing countries.

To date, more than 150,000 officials from more than 180 countries, territories and intergovernmental organisations have participated in our courses and study visits. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs.

Japan International Cooperation Agency

The Japan International Cooperation Agency (JICA), one of Japan's Official Development Assistance (ODA) implementing bodies, has been extending technical cooperation in human resource development to facilitate the autonomous, sustainable development of developing countries since its establishment in 1974. From 2008, JICA was further strengthened to incorporate all activities of Japan's Official Development including concessional ODA loans and grant aid in an effective and efficient manner.

JICA will enhance the impact of assistance through (a) A More Strategic Framework to achieve medium-to-long term development goals of developing countries (b) More Predictable Aid as operational "rolling" plans will be utilised in policy dialogue with developing countries (c) Speedier Project Formulation through "Preparatory Survey" to ensure flexibility and speed at the project preparation stage (d) Assistance Tailored to Real Needs: Synergy of Aid Schemes to offer assistance that most effectively addresses the needs of developing countries.

Japan - Singapore Partnership Programme for the 21st Century (JSPP21)

As countries whose prime resources are their people, Singapore and Japan believe that human resource development is important for economic and social progress. With this mutual understanding, Singapore and Japan signed a Memorandum of Understanding in January 1994 to train participants from developing countries by sharing each country's expertise and experience from their economic development under the Japan - Singapore Partnership Programme (JSPP).

The Japan - Singapore Partnership Programme for the 21st Century (JSPP21) was established through a Memorandum of Discussion (MOD) signed in May 1997, to signify a widening of the scope of technical cooperation between Singapore and Japan. Since then, the MOD has been renewed three times, most recently in December 2018.

With a view to enhancing ASEAN integration and sharing the two countries' experience in their areas of expertise, both governments recognised, as areas of priority, training and capacity building for third countries in the fields of (a) security and peace, (b) addressing vulnerability, (c) private sector development, (d) connectivity, and (e) smart initiatives.

Since 1994, Singapore and Japan have implemented close to 400 training courses for more than 7,000 participants in diverse fields such as public governance, trade promotion, climate change and environment, community policing, disaster management, maritime navigation, tourism, and urban planning.

Centre for Liveable Cities

Set up in 2008 by the Ministry of National Development and the Ministry of the Environment and Water Resources, CLC has as its mission "to distil, create and share knowledge on liveable and sustainable cities". CLC's work spans four main areas – Research, Capability Development, Knowledge Platforms, and Advisory. Through these activities, CLC hopes to provide urban leaders and practitioners with the knowledge and support needed to make our cities better.
