Subject: Knowledge Co-creation Programme (International Study Tour) - Call for Nominations
Dear Sir/Madam,

National Institute of Secretariat Training & Development (NISTD), Ministry of Human Resource Development, (Department of Education), Govt. of India, serves as an autonomous body dedicated to enhancing the skills and capabilities of officers in various sectors of the Indian industry. Our primary objective is to provide comprehensive training to officers belonging to Central and State Government Services, as well as other organized/subsidiary services. This initiative aims to empower these officers to perform their duties more effectively and efficiently, thereby contributing to the overall improvement of administrative services.

In response to the demands of today's rapidly evolving business landscape, continuous enhancement of knowledge is essential. While experiential learning remains invaluable, staying informed about emerging technologies and best practices is crucial for maximizing project productivity and effectiveness. We are excited to introduce our specialized program, the Study Tour for Construction Professionals. This program is meticulously designed for executives and decision-makers across local, state, and central government sectors, as well as the corporate realm.

By facilitating international tours, this program aims to provide participants with a comprehensive understanding of cutting-edge practices and innovations from around the globe. As India strengthens its position on the global stage, this initiative is poised to equip participants with the insights needed to contribute effectively to the nation's growth.

Our Capacity Building program, facilitated through Technical Cooperation Programs with various governments and international partners, covers a diverse range of thematic areas aimed at enhancing leadership, managerial skills, and business administration. This program addresses critical global challenges while emphasizing the development of "Smart and Sustainable Cities." Training initiatives will span disciplines such as:

- Seismology, Earthquake Engineering, Tsunami Disaster Mitigation
- Operation and Maintenance of Urban Water Supply Systems, Public Health, Food Security
- Civil Supplies, Disaster Risk Reduction, Infrastructure Development
- Gender Mainstreaming Policies, Renewable Energy, Forestry Management

Through these initiatives, participants will gain valuable insights into modern management practices, enabling them to effectively contribute to the growth and sustainability of urban centers. Our collaborations with governments from Europe, the UAE, Russia, Japan, and Southeast Asian countries highlight the international scope of this endeavor, fostering cross-cultural learning and knowledge exchange to address complex global challenges.

NISTD is pleased to announce the organization of international study tours on various topics in the following cities:
