Subject: Knowledge Co-creation Programme (International Study Tour) - Call for Nominations

Dear Sir/Madam,

National Institute of Secretariat Training & Development (NISTD), (Department of Education, Govt. of India), serves as an autonomous body dedicated to enhancing the skills and capabilities of officers in various sectors of the Indian industry. Our primary objective is to provide comprehensive training to officers belonging to Central and State Government Services, as well as other organized/subsidiary services. This initiative aims to empower these officers to perform their duties more effectively and efficiently, thereby contributing to the overall improvement of administrative services.

In response to the demands of today's rapidly changing business environment, continuous evolution and enhancement of one's knowledge base are essential. While experiential learning remains invaluable, staying abreast of emerging technologies and best practices, particularly in technical realms, is imperative for project productivity and overall work effectiveness. We are thrilled to introduce our specialized program, the Study Tour for Construction Professionals, meticulously designed for executives and decision-makers in various sectors including local, state, and central government, as well as the corporate sphere. By facilitating international tours, our program aims to provide participants with a comprehensive understanding of cutting-edge practices and innovations globally. As India positions itself on the global stage, this initiative is poised to empower participants with the insights and exposure required to contribute effectively to the nation's growth.

The Capacity Building program, facilitated through Technical Cooperation Programs with various governments and international partners, encompasses a diverse range of thematic areas aimed at enhancing leadership, managerial skills, and business administration. The program addresses critical global challenges while emphasizing the development of "Smart and Sustainable Cities." It offers a comprehensive array of training initiatives, spanning disciplines such as Seismology, Earthquake Engineering, Tsunami Disaster Mitigation, Operation and Maintenance of Urban Water Supply Systems, Public Health, Food Security, Civil Supplies, Disaster Risk Reduction, Infrastructure Development, Gender Mainstreaming Policies, Renewable Energy, and Forestry Management. Through these initiatives, participants gain valuable insights into modern management practices, enabling them to effectively contribute to the growth and sustainability of urban centers. The collaboration with governments from Europe, UAE, Russia, Japan, and Southeast Asian countries underscores the international nature of this endeavor, fostering cross-cultural learning and knowledge exchange to address the complex challenges of our rapidly evolving world
